

LTX810

Full Color Label Printer

from **LABELTRONIX®**

Professional-Quality Results

There's no need to settle for low-resolution color labels on your products. LTX810's incredible 4800 dpi printing delivers results that far exceed virtually any other on-demand print method available today.

Six built-in print resolutions lets you select the combination of print quality and speed that fits your application best. No matter which you choose, your labels are bright, colorful and professional. You can mix any combination of text, graphics, photos, and illustrations. Any font already installed on your PC can be printed, giving you maximum flexibility and creativity in your designs.

A Wide Variety of Materials - Including Labels That Are Highly Water-Resistant!

LTX810 prints onto many different materials, including high-gloss, matte and semi-gloss labels. You can also print onto tags, synthetics, continuous forms, transparent polyesters and low-tack adhesive materials. There's even a high-gloss label stock that's highly water-resistant. It's perfect to primary or box labels that can be exposed to water, rain, and snow.

You can print labels as narrow as 0.75" wide (total liner/web width must be minimum of 1.5"), up to a full 8" wide and up to 24" long.

Two different types of ink – dye and pigment – are available. This ensures that your combination of ink and substrates are the perfect match for your application.

Heavy-Duty Design

With its durable metal frame and tough sheet metal case, LTX810 is designed for use in environments ranging from the office desktop to a busy warehouse or factory floor. Label materials are stored inside the printer cabinet to protect them from dust and dirt. Replacing ink cartridges and labels takes just seconds each.

Get Up and Running Quickly

From initial set-up to full operation, the LTX810 is easy to use. The Windows XP/2000 drivers control all printer functions. Label design software from NiceWare™ and a sample roll of high-gloss, water-resistant labels are also included. You'll be printing full-color labels within minutes of taking the printer out of its shipping box!

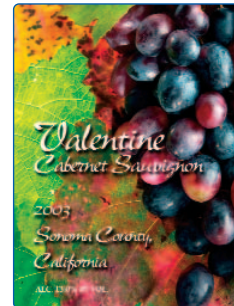

Uncompromised Value

Until now, in-house color label printers were prohibitively expensive. But now, you can produce stunning, full-color labels for a fraction of the cost of other color label printers. Better yet, the LTX810's print resolution is far higher than thermal transfer or other inkjet color printers. With the LTX810, you're getting the best value and the best output quality!

Specifications

| | |
|------------------------------------|--|
| Print Method | Inkjet |
| Print Resolutions | 4800 x 1200 dpi, 2400 x 1200 dpi, 600 x 600 dpi |
| Print Speeds | Approximately 2" (51mm) per second for black Approximately 1.5" (38mm) per second for color + black Approximately 10" per second for feed rate |
| Ink Cartridges | #93-INK005 Color (CMY) #93-INK004 Black Dye-Based (Kd) #93-INK006 Black Pigment-Based (Kp) |
| Colors | 16.7 million |
| Color Matching | Z-Color™ Color Matching Software |
| Maximum Print Width | 8" (203mm) |
| Maximum Media Width | 8.25" (210mm) |
| Minimum Print Width | 0.75" (19mm) |
| Minimum Media Width | 1.50" (38.1mm) |
| Maximum Print Length | 24" (609mm) |
| Minimum Media Length | 0.75" (19mm) |
| Media Types | Roll-fed pressure-sensitive labels, roll-fed tags |
| Media Sensing | Moveable see-through sensor for die-cut labels and reflective for tags with black stripe sensing |
| Supply Roll | 6" (152mm) maximum diameter on 3" (76mm) core |
| Ink Level Warning | Calculates actual number of prints remaining based upon ink usage of graphics being printed (patent-pending) |
| Indicator Lights | Power, Pause, Ink |
| Controls | Pause, Feed, Stop/Cancel |
| Operating Systems | Windows XP/2000 / Mac running OS X, 10.2 or higher |
| Data Interface | USB 2.0 |
| Recommended Minimum Systems | Pentium® IV computer or better, 512MB Ram, 500MB free hard drive space, USB 2.0 port |
| Label Design Software | NiceLabel™ SE Primera Edition included. Can also be used with most other popular Window-based label design software programs |
| Electrical Rating | 12VDC, 5.0A |
| Power Requirements | 100-240VAC, 50/60 Hz, 60 watts |
| Certifications | UL, UL-C, CE, FCC Class B |
| Weight | 29 lbs (13.2 Kg) |
| Dimensions | 17"W x 9.1"H x 15.5"D (432mmW x 231mmH x 394mmD) |
